

ELECTRICAL LICENSE RENEWALS

IMPORTANT INFORMATION: for those who did not receive their license renewal notices, particularly contractors in the Coeur d'Alene, Post Falls and surrounding areas.

It was recently brought to the Electrical Bureau's attention that some licensees did not receive their license renewal notices.

As you are aware, in 2002 the licensing renewal period for Electrical Journeyman, Master Electrician, and Specialty Journeyman license was revised to a three (3) year - (36-month) cycle. Each license shall expire thirty-six (36) calendar months from the date of issue, unless renewed as provided in section 54-1013, Idaho Code.

Apprentice and Specialty Trainee's licenses remained on a yearly cycle, due in the month of July, each year.

The Electrical Contractor licensing renewal period has always been the month of July, annually, since 1961.

The Bureau, as a courtesy to the licensee and to expedite the licensing process, mailed out renewal notices to all active licensees. It is unfortunate some notices were not received, or forwarded.

It has always been the licensee's responsibility to verify the expiration date(s) of their respective professional license and renew the license in compliance with Idaho Code 54-1013.

NOTE: DBS now issues one, (1) licensing card for multiple licenses, such as: Public Works, HVAC, Plumbing and Electrical.

****Please be sure to check your license regularly, verifying the expiration date and make sure that your license(s) is renewed/revived, and current. Also, it is imperative for the industry to inform the Electrical Bureau of address, phone number changes, and signing journeyman changes. ****

Thank you for your cooperation and assistance, DBS - Electrical Bureau.
